A BRIEF FACT SHEET

HISTORY

ACI Singapore (formerly known as the Forex Association of Singapore) has undergone significant changes in recent years in response to structural changes taking place in the financial markets. In July 1998, the Association was officially renamed ACI Singapore – The Financial Markets Association, to become the standard bearer for financial markets professionals in Singapore.

The Constitution was amended to encompass these changes. As a result, we are now multi-disciplinary and members represent all major areas of the industry, including financial markets professionals employed in corporations, financial markets academics and professionals/vendors engaged to providing products & services to the financial markets. The membership will also fully embrace our important colleagues who support the treasury businesses in the middle & back offices.

The Association was formed in 1973. During this period, Singapore has emerged as one of the largest foreign exchange trading centre in the world.

AFFILIATION

ACI Singapore is affiliated to ACI – The Financial Markets Association which is the global umbrella body of national forex associations. It has over 13,000 international members worldwide in more than 60 countries. This makes ACI the largest international association in the wholesale financial markets.

COLLABORATION

Locally, ACI Singapore works closely with the Singapore Foreign Exchange Market Committee (SFEMC), other market bodies and academic institutions. Internationally, the Association liaises closely with ACI, ACI Asia and other national associations, particularly those in the Asia-Pacific region.
